A2 Key Part 2

1 In Key Part 2 tasks with three short texts, what should you do?

a Read one text, then look for all the questions you think are about that text. Then read the next text.

b Read all three texts first, then read the questions.

2 Choose the correct alternative.

1 A *designer/dentist* plans and draws something before someone makes it.

2 An *engineer/astronaut* goes into space.

3 A *nurse/builder* works with people who are ill.

4 A *businesswoman/waitress* has her own company or has an important job in a company.

5 A *dentist/mechanic* fixes things like cars.

6 A *waiter/businessman* is a man who brings food in a restaurant or café.

Exam tip

In activities where you match people and information, read all the texts first before you look at the questions. Check for answers in all the texts.

3 For each question, choose the correct answer.

An inspiring person I know

Amelia

My friend Freya is only 16, but she's a businesswoman! She loves running and she does a lot of 5 km and 10 km races. She didn't know where to put all her medals, but then she had an idea – she made a beautiful medal board to put them on. Now she makes lots of medal boards and sells them online. Freya is very hard-working and organised so she still has time to study for her exams!

Oscar

My cousin David is a nurse. He works in a big hospital with people who are very ill. It's a really difficult job, but he's always kind and cheerful. He studied to be an engineer at university, but then he decided he wanted to help people in his job. His parents weren't happy at first because they wanted him to be an engineer, but now they're happy because he loves his job.

Erin

My aunt Mel is a designer for a technology company. She designs smartphones and tablets. She didn't go to university after school, and she was a waitress for about ten years. She was good at that because she's friendly and patient, but she wanted to do something different. She's very intelligent and creative, and she wanted to be a designer. She went to university when she was 30 and now she's got a really cool job!
