Reading

11 Read the article about three school students.

Anna

I'm not interested in everything we study at school – like our ICT lessons. But we learn three languages, and that's great. Now when we go to some countries on holiday, I can actually talk to people! I think it's really important to learn things like that, because they can help us when we're older. And at the moment, I'm very happy at my school because we've got new science labs and a big new sports hall. My parents and I both think they're excellent.

Maria

My parents were both pupils at my school – a long time ago! It's very different now! We've got a big sports field, and we can play things like football and tennis there. But those lessons are usually on Friday afternoon – when we're really tired! But I still love sport, and baseball's my favourite. I'm usually the worst in the team, but I don't mind. It's fun! I'm good at languages, but I'm not brilliant at Maths – but for me the Maths class is more interesting. The things we learn are really useful to me.

Sophie

I'm really excited because our class is going to go to Paris next month. Two teachers are coming with us, and we're going to visit all the sights – and try and speak French! It's going to be an amazing trip because everyone says Paris is a cool place. There are lots of museums to visit – and great cafés! But French isn't really my favourite subject. I'm better at Spanish and Geography. I love learning about different countries, and I want to be like my mum when I'm older – a Geography teacher!
