- (They/hear) the word 'garbage' before.
- (My little brother/see) a live dolphin.
- (she/read) about the Great North woods?

5 Choose the best answer to complete this text.

Dolphins or porpoises? What's the difference? It's one of (1) mistakes people make when they identify these animals. It is true that they have similar characteristics like colour and size, but they are very different animals. In fact, they belong to two different families of cetaceans. Porpoises are normally (2) than dolphins. The (3) dolphins are about four feet long with the (4) being 30 feet long. Dolphins usually have a curved dorsal fin, while porpoises have a triangular one. Also their personalities are different. Dolphins tend to be (5) and playful. Have you (6) them jumping in and out of the sea? They're amazing. And if (7) heard their sound, well, look it up on the Internet, it's super! On the contrary, porpoises are (8) and also (9) around humans than dolphins. But dolphins and porpoises have many similarities, one of which is their intelligence. They are among (10) animals on Earth.
