Botín is a ~~some~~ wonderful restaurant in Madrid. It started to serve food in 1725. The restaurant is in an old building and it still uses the original wood oven from the 18th century. It serves excellent ~~many~~ traditional Spanish food, so there aren't any ~~of~~ American or Asian dishes. The slow roasted lamb and chicken are the ~~many~~ speciality dishes which you should try. There are also some ~~much~~ fish dishes and ~~for~~ some good vegetable dishes too. There are a lot of desserts, including cream cake, chocolate tart, cheesecake and rice pudding. They all look ~~much~~ delicious, so it is difficult to choose. It is a very popular place, so there are always a lot of people there. You should ~~to~~ make a reservation in advance to be sure of a table. It is in the heart of Madrid, close to the Plaza Mayor, so you shouldn't ~~to~~ have difficulty in finding it. It is a ~~for~~ place to relax and enjoy excellent food and drink with your friends.

Amy: It's an online shop.

Gran: I've never bought anything online ~~yet~~.

Amy: It's very easy, Gran, and it means you don't have to go into town. I ~~have~~ do lots of shopping online. I've already done a supermarket shop this morning ~~just~~.

Gran: Well, I prefer going into town. Have you noticed ~~to~~ the new shoe shop in the High Street?

Amy: No, I haven't.

Gran: They've got ~~ever~~ some beautiful boots in the window. I haven't ~~never~~ been in yet though. Oh and a bakery has just opened ~~been~~ in Queen Street. They sell the most delicious cakes you have ~~never~~ ever seen!

If you ~~will~~ ask people to name important inventions of the 20th century, the list will ~~to~~ include cars, planes, personal computers and, of course, the Internet. The Internet is a form of communication that is used ~~be~~ widely today. It wasn't invented in one particular year, it was ~~been~~ developed over several decades. Initially, in the 1970s, networks were ~~be~~ used internally by research companies. In 1989, a browser called the World Wide Web was created by ~~the~~ Tim Berners-Lee. A few years later other browsers such as Firefox and Chrome were working too. All of them are still ~~to~~ used today. They are known collectively as 'the Web'. In the space of fifteen years the way we communicate has changed completely.

The Internet is used for shopping, banking and finding out information rapidly. It is also used to speak to people in other countries because it is ~~not~~ cheaper than the telephone. If we ~~will~~ continue to use the Internet regularly, we won't ~~not~~ talk to people face-to-face so often. It is a fact that if you don't practise something, you ~~will~~ forget how to do it. Will we forget how to communicate with other people?
