Facts about diabetes

There are two types of diabetes. Type 1 diabetes occurs if the body (1) any insulin. It usually occurs in people under 40. Type 2 diabetes occurs when not enough insulin is produced. It occurs in older people, although it is becoming more common in children nowadays. In fact, there has been a 60% rise in cases in the UK in the last decade. Some people say things like, 'If she (2) so many sweets, she wouldn't have become diabetic.' However, although a sugary diet doesn't help, it is not the cause of diabetes. In many cases, it is just bad luck. Others say, 'If only he (3) sooner, they could have prevented it.' Again, this is not strictly true. If you have diabetes, it (4), you can only control it. However, it is important to know that you can have a normal life, if you (5) diabetic. If you (6) the condition, you can manage it. One girl who was diagnosed with diabetes as a teenager said, 'I wish I (7) to the day I was diagnosed to tell myself that diabetes wouldn't be a problem. I wouldn't have worried so much then.' (8) follow a sensible diet and listen to your body you should be OK. Two symptoms are continually feeling exhausted or being thirsty all the time. Remember this, (9) anyone in your family ever feels this way. If you are at all worried about your health, (10) and see your doctor. Don't put it off as this could make any problem you have worse.
