### Synaesthesia: the new sense?

Have you ever heard of synaesthesia? It's a condition where the reaction of one sense results in experiences in a second sense. Some people (1) ..... a food and hearing a sound as a result. Others (2) ..... sounds when they smell something. There (3) ..... quite a few 'synaesthetes' (people with this condition) around the world. A lot of people have quite a mild form. For instance, when they (4) ....., they visualise the words in specific colours. However, others have stronger forms. James Wannerton, president of the UK Synaesthesia Association, has a very strong condition. Sounds, words and colours have taste and texture to him. He can't (5) ..... hungry because he always feels like he has something in his mouth. For example, when he (6) ..... the name Audrey, it conjures up the flavour and texture of a tin of tomatoes. Quite a few synaesthetes are well-known and it's possible that their talent is aided by having synaesthesia. Daniel Tammet is a savant who (7) ..... high-level maths and can speak seven languages. Numerous musicians, including Ed Sheeran, Pharrell Williams and Lady Gaga, have (8) ..... music and seeing colour.

When you ask a synaesthete if they want this condition to change, they usually say no, because it is normal to them and they want to (9) ..... the way they're used to. Perhaps the real question is how we can describe what we (10) ..... normal.
