

<b>Description</b>	Students put sentences in the correct order to describe two dreams
<b>Lesson link</b>	Use this activity after exercise 5
<b>Time</b>	10 minutes
<b>Extra material</b>	Print out and photocopy the <i>Two dreams</i> worksheet – one copy for each pair of students

## Instructions

- a** Give each pair of SS a copy of the *Two dreams* worksheet. Tell SS that they have a description of two dreams, but that the sentences are in the wrong order. Give them three minutes to put the description in the right order by numbering the sentences 1 to 10. There is a line before each sentence for SS to write their number.
- b** When they've finished, check answers as a class.

### Answers

- 1 When I left my last job I had two strange dreams.
- 2 In the first one I was in a city.
- 3 I was walking down a street and I heard lots of people speaking.
- 4 But when I listened to them, I couldn't understand anything they said.
- 5 In the dream I felt very cold and I woke up feeling very frightened.
- 6 In another dream, after I found a new job, I was in a jungle.
- 7 It was very green and there were hundreds of beautiful birds everywhere.
- 8 They were flying around me and making a terrible noise.
- 9 I said something – I don't remember what – and they suddenly went silent and watched me from the trees.
- 10 And that was the end, but in this second dream I didn't feel frightened at all. It all seemed quite normal!

- c** Ask SS in their groups to discuss the dreams. What do they think they mean?

### Possible answers

In the first dream the person feels lost and alone, probably because they've just left their job.

In the second dream they're surrounded by strange things, but they feel much more confident – they don't know exactly what's happening, but their new job is exciting.
