

Name _____ Class _____ Date _____

- 1 Look at the pictures to complete the puzzle. Then find the mystery animal in the grey squares.

The mystery animal is a donkey.

LEARN TO LEARN

- 2 Write two animals in each category.

Four legs

bear, horse, giraffe, crocodile, donkey,
hippo, lion, mouse

Two legs

parrot, eagle, duck, monkey

No legs

snake, whale

- 3 Complete the sentences with the adjectives in the box.

clever	dangerous	heavy
lazy	tiny	wild

- Adult hippos are very heavy. Some weigh 3,200 kg.
- Giraffes definitely aren't lazy – they sleep for only 30 minutes a day.
- Dolphins are very clever. They can work in groups to catch fish.
- The pygmy mouse is from Africa. It's tiny – just 6 to 8 cm.
- The king cobra is a venomous snake. It's very dangerous.
- There are about 1,864 wild pandas in the world and about 300 in zoos.

- 4 Circle the correct options.

Amazing animals: the blue whale

Blue whales are amazing because they're ¹lazy / beautiful, but they're amazing for lots of other reasons, too. They're very ²large / tiny. Some adult blue whales are 30 metres ³long / noisy. And, of course, they're also very ⁴heavy / cute: one adult blue whale weighs about 136,000 kg – that's the same as 300 horses, 2,200 men or 6 million mice! Blue whales can communicate with other whales over very long distances, so they're very ⁵noisy / dangerous. They're ⁶wild / clever, too. For example, it's possible that they can understand numbers.

- 5 What animal do you think is amazing? Why?

I think cheetahs are amazing because they're beautiful.

They aren't lazy.

They can run at over 100 km per hour.

They aren't very large, but they've got long legs.
