

SAVE OUR PLANET!

Student A

- 1 Describe the photo to your partner. What does it tell us about our planet?

- 2 Complete the sentences. Then compare with your partner. (Possible answers)

- 1 If we don't reduce pollution, our lives could be in danger.
- 2 Endangered species will die unless we protect them.
- 3 If we reduced carbon dioxide emissions, the planet's climate would be more stable.
- 4 There would be less energy waste if everyone used solar power.
- 5 If we don't protect the rainforests, lots of animal species will disappear.

- 3 In pairs, discuss each topic in Exercise 2. Use the phrases in the box below.

Giving your opinion

Don't forget that ...

Remember that ...

Maybe you're right, but ...

I see your point, but ...

Let's agree to disagree.

- A *I think the best way to reduce pollution is to ban cars from cities.*
B *I see your point, but ...*
