While you watch

3 Watch the video. How do people communicate in the 21st century? Write down all the different ways mentioned in the video.

Pictures, speech, technology (texts etc), body language, emojis, written words.

4 Watch the video up to 00:58 and complete the text.

In speech we can communicate by using ¹words, but also by ²how we say them, the way we move and the way we ³feel when we say them.

Sometimes our ideas are not clear and other people get the ⁴wrong message.

In texts, people started using punctuation to show ⁵emotions, but it didn't always work.

5 Watch the video from 00:58 to the end. Complete the table with information from the video about what people used to communicate.

- Ancient wall drawings showed animals and people.
- Arabic speakers use flower and plant emojis.
- The most popular emoji is the smiley.
- French speakers use hearts.

After you watch

6 In your notebook, write two short chats with a partner using words and your favourite emojis. Follow the instructions below.

- Start with a question about last weekend / after school today / next weekend.
- Reply saying what you are doing / did and include how you feel / felt.
- Respond to your partner.
