My new computer

Look! This is my new computer. It's great!

This is the screen and this is my desktop picture – I love the mountains!

This is the keyboard. I can write emails and I can type my home work.

This is the mouse. I click on a file and it opens.

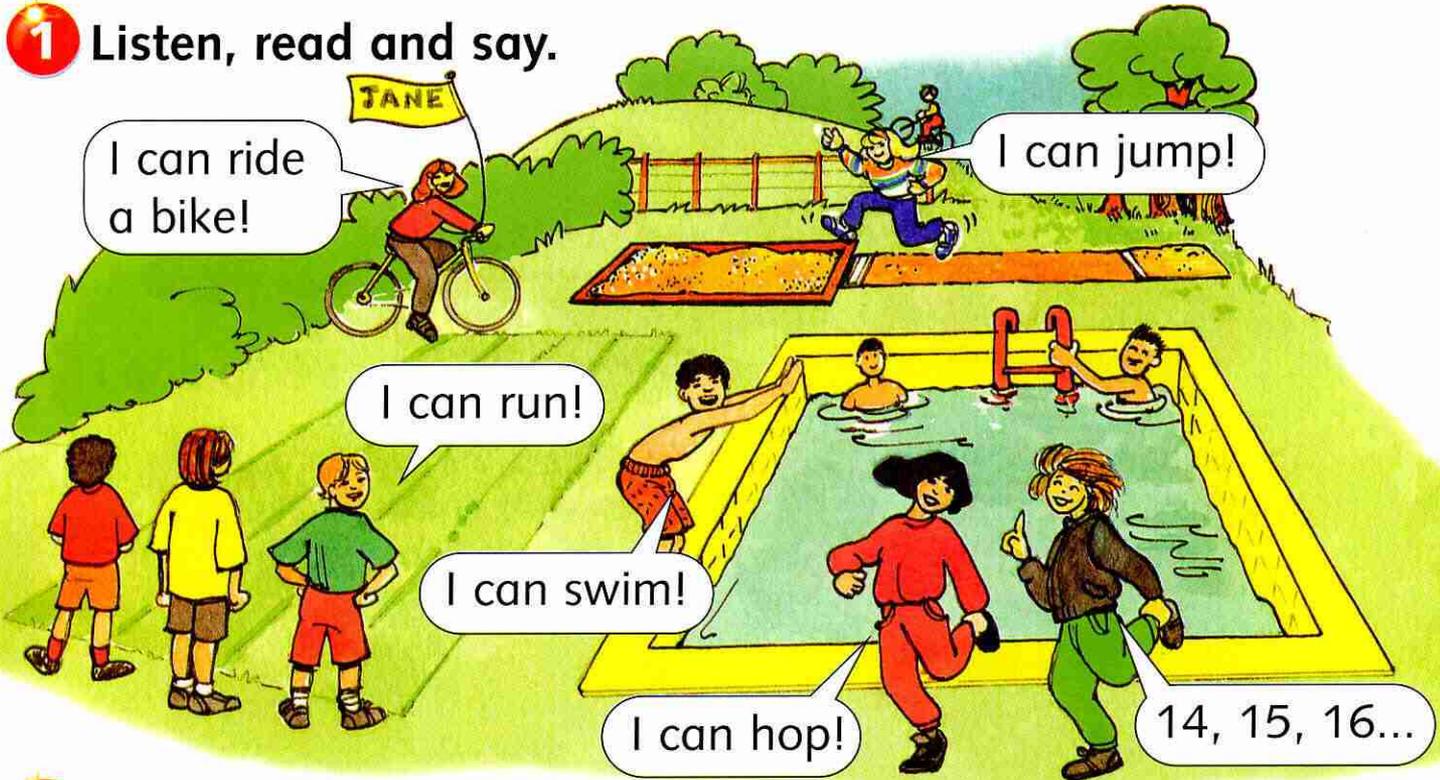

This is the printer. I can print in black – and in colour!

I switch on my computer. I send e-mails, use the internet and play computer games. At half past eight my dad says, 'Bedtime! Switch it off, please,' Oh, well! More fun tomorrow!

Way Ahead

Pupil's Book

1

Way Ahead is an imaginative, six-level course for primary school children who are learning English as a first foreign language.

The course is reading based, with a strong communicative flavour. The structures and functions of English are taught through a variety of inviting, child-centred activities, which have been carefully graded and are suitable for classes in a variety of cultural backgrounds.

At the lower levels, the books introduce a cast of interesting characters who contextualise the language and make learning fun.

At the upper levels, new language is presented through a series of motivating and informative topics, and the course develops the skills the children need to pursue their studies to a higher level.

This new edition of **Way Ahead** has been redesigned and updated to attract a new generation of learners. The extensively rewritten Practice Books include more exercises, additional handwriting work and more challenging practice tests. The new Story Audio Cassettes offer recorded versions of the Readers and the Reading for Pleasure pages from the Pupil's Books.
