## 9 Grammar Review

**Aims:** To review and practise grammar from the unit. This can be completed when students have finished the unit.

**Time:** 15–20 minutes

**Materials:** 1 handout for each student.

- Explain that they are going to play a game where they need to guess who in the class has done certain things.
- Draw students' attention to the first picture and the prompt. Ask them to think if they know anyone in the class who has met a famous person. Then elicit the sentence they will need to write.
- Explain to students that the past perfect of the verb *go* has two forms: *been* (if the person has returned) and *gone* (if the person hasn't returned yet). For question 3, they will need to use *been*.
- Give students five minutes to write the remaining sentences with the names of different people in the class. They should write a different name for each sentence.
- Then ask students to stand up and walk around the room and ask all the people they have written about.
- With a **weaker class**, elicit the questions they will need to ask.
- Students tick or cross the sentences to show if their guesses were correct or not.
- Check some of the answers with the class.
- At the end, the student with the most ticks is the winner.
