Introduction to *Solutions Third Edition*

A note from the authors

Welcome to *Solutions Third Edition*. Teachers' responses to *Solutions* and *Solutions Second Edition* have been overwhelmingly positive. *Solutions Third Edition* has evolved, based on teacher feedback, whilst retaining the key features that teachers value in the *Solutions* series:

- engaging topics and texts
- a strong focus on exam topics and tasks
- a clear structure, with easy-to-follow lessons that always have an achievable outcome
- a familiar teaching and learning approach with plenty of extra practice material
- a guided and supported approach to speaking and writing

In the course of extensive research carried out for the new edition, we spoke to scores of teachers and asked them how we could improve the course.

In response to their requests, we have:

- provided 100% new content
- included a Listening lesson in every unit which will develop your students' listening skills
- included a Word Skills lesson in every unit which explores the grammar of key vocabulary and includes dictionary-based exercises
- addressed mixed ability, with extra support for all levels and suggested extension activities in the Teacher's Guide
- increased the amount of language recycling and included a *Recycle!* activity to consolidate grammar students have studied earlier in the course
- provided added flexibility with a bank of Culture lessons with supporting DVD documentary clips at the back of the Student's Book and extra activities on the Classroom Presentation Tool

Solutions Third Edition has benefited from collaboration with teachers with extensive experience of teaching and preparing students for exams. We would like to thank Christina de la Mare for sharing her expertise in writing the procedural notes in the Teacher's Guide.

We are confident that the result is a forward-thinking and modern course that will prepare your students for the future and provide you with all the support that you need. We hope that you and your students enjoy using it!

Solutions Third Edition and exam preparation

Student's Book

The Student's Book includes five exam-specific sections (*Exam Skills Trainer*) designed to familiarise students with the task-types for most exams.

These sections provide strategies and exam techniques to give students the skills they need to tackle exam tasks with confidence.

Each section provides practice of all the skills that students will need to demonstrate in most exams: use of English, listening, reading, speaking and writing.

Workbook

Every other unit in the Workbook is followed by a double-page exam section to practise tasks for both oral and written exams. Work in class can be followed up with tasks done as homework.

The audio for Workbook listening tasks is on the Workbook Audio CDs or can be downloaded from www.oup.com/elt/solutions.

Teacher's Guide

The Student's Book *Exam Skills Trainers* are accompanied by full procedural notes with advice and tips for exam preparation.

A tour of the Student's Book

As well as the Introduction Unit, there are nine units in the Student's Book. Each unit has eight lessons (A–H). Each lesson provides material for one classroom lesson of approximately 45 minutes.

Lesson A – Vocabulary

- Lesson A introduces the topic of the unit, presents the main vocabulary sets, and practises them through listening and other activities. The vocabulary is recycled throughout the rest of the unit.
- The unit map states the main language, skills and topic areas to be taught. It gives a visual reference to the skills pages and highlights the reference sections in each unit.
- *I can ...* statements in every lesson establish a clear learning objective.
- Vocabulary is presented in lexical groups which aids learning, memorisation and recall of new language.
- The *Recycle!* activity recycles a grammar structure students have learned earlier in the course using the vocabulary from the lesson.
- The lesson finishes with a speaking task giving further personalised practice of the lesson vocabulary.

Lesson B – Grammar

- Lesson B presents and practises the first main grammar point of the unit. The new language is presented in a short text or other meaningful context.
- There are clear grammar tables and rules, and the grammar presentation is interactive. Students often have to complete tables and rules, helping them focus on the structures.
- *Look out!* boxes appear wherever necessary and help students to avoid common errors. *Learn this!* boxes present key information in a clear and concise form.
- This lesson links to the *Grammar Builder* and *Grammar Reference* at the back of the book, which provides further explanations with examples and more practice.
- There is always a supported final speaking activity for students to apply what they've learned in a productive task.

Lesson C – Listening

- Lesson C follows a comprehensive and systematic syllabus to improve students' listening skills.
- Lessons start with a vocabulary focus.
- There is a focus on one key sub-skill per lesson to allow extensive development and practice of listening skills.
- Each lesson has a listening strategy, focused on the sub-skill.
- The second part of the lesson allows students to apply the sub-skill to an exam-like listening task.
- Lessons end with a speaking task.
