## 8D Reported questions

**Aims:** To review reported questions.

**Time:** 10–15 minutes

**Materials:** One handout for each student

### Exercise 1

- Give each student a handout and ask them to rewrite the direct questions as reported questions. Remind them, if necessary, that reported *yes/no* questions use *if* or *whether*, and reported *wh*- questions use the *wh*- question word.

#### KEY

- 1 if / whether I had been at school the day before
- 2 what he had done the summer before
- 3 if / whether their house was near the park
- 4 when she had got up the day before
- 5 who was reading his magazine
- 6 if / whether he had bought a new phone the week before
- 7 how friendly our dog was
- 8 if / whether they would go to university the following year

### Exercise 2

- Students work in pairs to read the telephone conversation and then complete the report. Tell them to read the conversation quickly first and ask: *Why has Trev called Jodie?* (because he's dropped his phone in the bath) You could also find out if students are familiar with the idea of putting a phone into a bag of rice if it has been dropped in water. Check answers with the class.

#### KEY

- 1 what the problem was
- 2 he had dropped it in the bath the night before
- 3 how long it had been
- 4 didn't know
- 5 he had done when he had taken his phone
- 6 he had put it in a bag of rice
- 7 if he had switched it off
- 8 if he could switch it on
- 9 he couldn't
- 10 didn't work at all
- 11 was sorry
- 12 would need

### Exercise 3

- Students play the game in pairs. Go through the jobs in the list and check that students understand all the vocabulary. You could also brainstorm more jobs vocabulary onto the board so that students have a larger choice.
