|--|--|
| Venus Williams                                       | One World Trade Center                               |
| whose sister is called Serena                        | which is in Lower Manhattan, New York                |
| is an amazing tennis player.                         | is the fourth tallest building in the world.         |
| Malala Yousafzi                                      | Stonehenge   |
| who is from Pakistan                                 | which is more than five thousand years old           |
| won the Nobel Peace Prize in 2014.                   | is a circle of enormous standing stones.             |
| The Beatles  | Machu Picchu   |
| who split up in 1970                                 | which is in Peru                                     |
| were one of the most famous groups in the world.     | is a 15th-century Inca site.                         |
| Bart Simpson   | The International Space Station,                     |
| whose father, Homer, works at a nuclear power plant, | which orbits the Earth at 27,724 kilometres per hour |
| has got two sisters called Lisa and Maggie.          | has got two bathrooms and a gym.                     |

## 6 Grammar Review

**Aims:** To review and practise grammar from the unit. This can be completed when students have finished the unit.

**Time:** 15–20 minutes

**Materials:** One set of cards cut up for each group of students

- Divide students into groups of three or four. Give them a set of cards. Explain that they have to join the lines together to make eight logical sentences. Tell them to think about what is being described in each phrase and explain that there is only one correct solution.
- Check answers by asking each group to read out one of their completed sentences and ask the other groups to listen and raise their hands if they think they hear a mistake.
- You could then ask students to write out the full sentences and add the commas in the correct places.

### KEY

Venus Williams, whose sister is called Serena, is an amazing tennis player.

Malala Yousafzai, who is from Pakistan, won the Nobel Peace Prize in 2014.

The Beatles, who split up in 1970, were one of the most famous groups in the world.

Bart Simpson, whose father, Homer, works at a nuclear power plant, has got two sisters called Lisa and Maggie.
