Show and Tell

Creating young thinkers with great futures

21st CENTURY SKILLS

Who makes you happy?
What do our senses tell us?
What happens in the garden?

Show and Tell gives you the tools to develop children's 21st century skills, creating young thinkers with great futures.

Show and Tell taps into children's natural curiosity, asking a question such as 'who makes you happy?' or 'what do our senses tell us?' as the focus for each unit. Activities encourage children to explore the question while learning the language they need to think and talk about it. End-of-unit class projects consolidate learning and encourage children to work collaboratively. Opportunities to 'Show and Tell' allow them to present their projects in class or at home, and to talk about what they have learned – in English!

- ★ Stories, hand-eye coordination practice, and letter formation activities lead to reading and writing simple sentences.
- ★ Problem-solving activities encourage children to think critically and creatively.
- ★ Values lessons teach children how to behave both inside and outside the classroom.
