Units 9–10

Guessing the meaning of words from context

- 1
Students' own answers.
- 2
Suggested answers
It's a science fiction and mystery story. Clues: the shadowy figure, the word *invisible* in the title.
- 3
Suggested answers
It's a science fiction and mystery story. Clues in blurb: the words *stranger*, *mysterious*, *scientist*, *experiments*, *demand answers*, *surprises*, *difficult to predict*.
- 4
1 *strange*: unfamiliar, alien, not previously seen
2 The stranger works on his own. The key word here is *lone*.
3 The stranger wears clothes that completely cover him, including black gloves and a long coat. Synonyms for *conceal* are *cover* or *hide*.
4 *Demand* here has a negative meaning. The 'serious action' that the stranger takes makes it clear he is not happy with the villagers' demand for answers.
5 *Wonder* is a verb. We know this because it follows the subject of the sentence, the villagers. When we *wonder*, we ask ourselves a question. There is a question after the word *wonder* in the blurb.
6 *Original*, *creative* and *funny* are all synonyms of *inspired*.
7 *Isolation* and *community* here have opposite meanings. The linking phrase *on the other hand* tells you this.
8 The fact that you can't *predict* the story and it's full of surprises tells us that the reader probably makes guesses about the story several times.
