It doesn't write with invisible ink. I'm writing this letter with it!

I don't have the receipt because the kit was a present, but I am sending the kit to you and you will see the problems. Could you please send me a refund or a kit that works?

A public park not a car park!

Do you want to lose the only public park in town?

Do you want to see more cars and fewer children?

If you answered 'No' to these questions then come to a meeting at the Town Hall on Friday 21 November at 8 p.m.

The local council is planning to sell our park to build a town centre car park. We will lose the only open space in the town. We will also lose the beautiful plants that attract birds and wildlife to the park.

This park is where people can meet friends, do sport and relax. Help save it!

Why not tell your friends about the plans or start a petition and ask your friends to sign it.

- Why is the park in danger?
 - The town wants to use the land for something else.
 - Fewer people are using it these days.
- If the park is sold, what will happen to birds and wildlife?
 - They will get lost.
 - There won't be any plants to attract them.
- Who uses the park at the moment?
 - Children who like to see the ducks in the pond.
 - Anybody who wants to relax, socialise or do exercise.
- What can you ask your friends to do?
 - Sign a petition
 - Come to the meeting.

- 2 Read the report Chloe has prepared for the meeting and match the information with the paragraph.

- who uses the park
- where is the park
- final ideas and suggestions
- plans for the park

1 The proposal

The local town council is planning to sell the land that is our public park. The land will be used for a new car park. I have interviewed over 300 people who regularly use the park. The aim of this report is to present their opinions. D •

2 The location

The park is in the centre of town. It has very old trees and plants, which most people believe we should protect and NOT destroy. The ducks have also lived there for more than a hundred years. If we lost the park we would lose them forever. Also the centre of the town has bad air pollution and the park is a special place where we can go and escape traffic fumes. ____

3 Activities

People of all ages use the park for a variety of activities. It is the perfect place for young families because it is safe and clean. If there were no park, families in the town centre would have nowhere to go. Teenagers and adults also enjoy the park as it is somewhere they can relax, meet people and get some exercise. Without the park they wouldn't have anywhere to go in their free time. ____

4 Conclusion

Most people who use the park realise that parking is a big problem in the city centre. However, they believe a new car park would not solve this problem and it would create more pollution. They would all be happy to sign a petition to protect their public space. ____
